

SUPPORT THE FUTURE OF PROSTHODONTICS WITH
CORPORATE MEMBERSHIP

FOUNDED IN 1928

The American Prosthodontic Society (APS) exists to promote the advancement of Prosthodontics by integrating prosthodontists, generalists, and technicians both nationally and internationally to continuously seek improvement of patient treatment.

CORPORATE MEMBERSHIP

The American Prosthodontic Society offers corporate partners the prospect of a broad exposure to specialists, generalist and technicians both from the U.S. and internationally. Our demographics are unique as we attract increasing numbers of younger graduates along with established leaders in our profession because of our exceptional scientific program and digital poster presentations. The annual meeting is distinctive in that it provides an environment to enhance partnerships between dentists, technicians and manufacturers, with over 400 attendees.

YOUR MEMBERSHIP WILL HELP US

Promote the field of prosthodontics by engaging with university programs and international dental organizations.

Inspire the future leaders of prosthodontics by providing relevant and educational learning programs.

Develop well-informed and connected stewards of the profession via networking and professional development events.

Join forces with the American Prosthodontic Society and gain unprecedented access to our membership by becoming a Corporate Member. Membership entails a three-year commitment and provides benefits that far exceed and transcend regular Annual Meeting sponsorship.
