

The American Prosthodontic Society
Promoting the Advancement of Prosthetic Dentistry Through Clinical Research and Education

The American Prosthodontic Society 2025 Webinar Series - July

Speakers – Prof. Diego Bechelli

Title

EGOP Protocol in interdisciplinary Oral Rehabilitation

Abstract

The seminar will be focused on the features of the Esthetically Guided & Occlusally Protected protocol, published by ABC Dental Team.

This approach is based on a comprehensive planning on oral rehabilitation highlighting the importance of conservative procedures, digital dentistry and interdisciplinary team treatments.

Learning Objectives

- An overview of EGOP protocol approach in dental structure loss patients
- Highlight the importance of facially driven, comprehensive and digitally based planning
- Develop a predictable integration between esthetic and occlusal aspects
