

The American Prosthodontic Society 2025 Webinar Series - October

Speakers – Dr. Agnė Malisauskiene

Title

Connect the Dots in Direct Anterior Restorations

Abstract

Connect the Dots is a step-by-step roadmap for direct anterior restorations, guiding clinicians through essential anatomical landmarks and treatment decisions. From incisal edge position to gingival architecture, participants will learn how to integrate function and esthetics into predictable, minimally invasive outcomes.

Learning Objectives

- Identify primary, secondary, and tertiary anatomical landmarks essential for predictable direct anterior restorations
- Apply a step-by-step workflow to integrate incisal edge position, proportions, and gingival architecture into daily practice.
- Treatment plan anterior composites for effective and efficient workflows.
